CAREER OBJECTIVE

To work in a challenging and stimulating environment envisaging personal growth and career development by association with an organization provides an ambience for learning and growth.

PROFILE SUMMARY

- Having experience with Python.
 - Strong analyzing coding and problem-solving skills with good interpersonal and communication skills.
 - Good exposure to OOPs concepts and Collections.
 - Ability to learn and adjust to any new situations optimistically.
-

EDUCATION

Bachelor of Technology

Aug 2019 - May 2023

Electrical and Electronics Engineering

Sree Vidyanikethan Engineering College, Tirupati

CGPA : 8.99

TECHNICAL SKILLS

- Python
 - GIT & GITHUB
 - HTML
 - CSS
 - Javascript (Basics)
-

ACADEMIC PROJECT

Title of the Project: Application of Support Vector Machine in Power System with FACTS Device under contingency condition.

Responsibilities:

- Numerous Discussions with Operations team and understand the process of work done.
- Engaging with Teammates and discussions on way of approach for automating the process.
- Review the estimates for work items, help the team with impact analysis and participate in estimation justification meetings with the teammates

- SVM is used for classifying the severity of the lines in power system and visualizing the data using Principal Component Analysis technique for Support Vector Machine Algorithm.

DECLARATION

I hereby declare that the above information is true to the best of my knowledge
